

AMENDMENTS TO THE SPECIFICATION:

Please replace the Abstract with the following amended Abstract. A clean copy of the Abstract incorporating the amendments on a separate sheet of paper is attached as an Appendix.

ABSTRACT OF THE DISCLOSURE

A brushless motor has a stator [[6]], a rotor [[7]] and a circuit board [[4]] for controlling rotation of the rotor [[7]]. The stator [[6]] has iron cores [[1]] and coils [[2]] wound around the iron cores. Switching elements [[3]] for turning on and off electric power to be supplied to the coils [[2]] for the stator are mounted to the circuit board [[4]]. A heat-radiating member [[5]] is fixed to the iron cores [[1]].
